NANKING, Sept. 27—Aerial activity unparalleled since world war days shook China for 2,000 miles today when Japanese bombers twice raided the Nanking and Canton districts and more than a score of other cities and towns.

Angered by a few Chinese advance north of Shanghai, Japanese aircraft, artillery and warships subjected that war front to a day-long bombardment preceding, said the Japanese army spokesman, a giant offensive "which will be like a river breaking its dikes."

Thirty Americans narrowly escaped death in the first raid on Canton. Refugees from the Yangtze valley, they had just left the Canton-Hankow railroad station when 13 Japanese airplanes began aiming their deadly missiles at the building.

Prevent Check of Casualties

At least 80 were killed in the first swoop. Most of them were poor noncombatants residing in the slums around the station. Only six were killed in the station itself.

While scores of anti- aircraft guns popped away at the Japanese, said dispatches from the South, Chinese soldiers withs fixed bayonets

PA NEWC OBSERVES

New Castle is getting some worth while benefits in the many streets which have been improved, and are being improved by WPA work. In the early stage of relief work there was a lot of boon-doggling that did not amount to much, and was a decided waste of money. But the street work is a real asset to the city, and the streets are being improved at a minimum cost to the property owners.

* * *

One nice thing about observing the same kind of time the year round, is that one doesn't have to get up at 2 a. m. to turn the clock back. Those who have been on fast time, performed this little function Sunday morning. New Castle didn't save any time this summer but how could it with only 24 hours a day?

* * *

We're hearing more talk about the long sought ship canal since it is understood that the engineers are ready to report. The canal would run from the Ohio river to Lake Erie and be 110 miles long if built.

Since the potato raisers are trying to get together on a program for Lawrence county, and the balance of the nation, what's the matter with the potato eaters organizing? If those who raise the potatoes get a bonus, why shouldn't the people who eat them?

Pa Newc overheard a couple of men discussing the high cost of meat. One complained that he was unable to provide meat for his family more than once a week. The other said his family ate meat twice a week and sometives oftener. How do you do it?" queried the first. "We raise and kill our own chickens" was the reply. Chickens offer one solution to the meat problem.

President Continues His Western Journey

By GEORGE DURNO
International News Service Staff Correspondent

ABOARD PRESIDENTIAL SPECIAL EN ROUTE WEST, Sept. 27.—The sentiment-sounding swing of President Roosevelt brought him into Idaho today as he neared completion of a complete span of the country.

The presidential special ran thru this western potato and silver country to Boise, where the president was spending the entire morning touring the town and later speaking. While the train runs on into Oregon, Mr. Roosevelt this afternoon will drive across the state, making appearances at Nampa, Caldwell, Wilder and Parma.

Democratic leaders of the state in full force boarded the train last night at West Yellowstone, where the president concluded a 36-hour sojourn in the park with Mrs. Roosevelt, their daughter Anna, her husband, John Boettiger, Seattle publisher, and Eleanor and Curtis, the two grandchildren.

Those aboard all agreed that the president was strong in Idaho. And that the state was more interested in the price of potatoes and silver, reclamation and roads than the supreme court issue or the alleged Ku Klux Klan affiliation of Justice Hugo L. Black.

Party Badly Split.

Mr. Roosevelt apparently, however, was walking into a state where the Democratic party is badly split on local issues. Senator James P. Pope, Governor Barzilla Clark and Rep. Compton White are all strong New Dealers. Rep. D. Worth Clark and National Committeeman Ramsay Walker are said to be "off the reservation".

Pope, it was understood, will have stiff opposition for re-election to the senate next year and his friends say

Rev. McLean comes here from Titusville, Pa., having been appointed to the First M. E. church here at the recent session of the Erie Conference, and Rev. Cousins coming here from the Oakland Avenue M. E. church of Sharon.

Rev. Rose, the youngest of the group of new pastors, comes here from Conoquenessing, Pa.

Rev. McLean and Rev. Rose occupied their pulpits at both services during the day, while Rev. Cousins preached only at the morning service, the evening period having been turned over to the City Rescue Mission, which is commemorating the 25th anniversary of its founding this week.

New Outbreaks In Spanish War

BULLETIN
(International News Service)

MADRID, Sept. 27.—Two unexpected insurgent attacks on the Aragon and Toledo fronts failed today, but important insurgent gains were recorded in the mountains and along the seacoast in Generalissimo Francisco Franco's push toward Oviedo and Gijon.

Capture of six villages and the ammunition dump at Orna, which had been supplying rebel forces south of Jaca, near the French border, was announced by the Madrid government.

Rebel assaults on government entrenchments farther south in Aragon were "completely repulsed", said the loyalist bulletin.

A violent insurgent attack on loyalist positions dominating Toledo merely "tested the government's resistance", and there was only a slight change in the loyalist lines, Madrid said.

Notable Day At Historic Old Church On Public Square Sunday

FORMER PASTORS SPEAK AT SERVICES

Homecoming Day was celebrated in the Central Presbyterian church on Sunday, September 26, when old time members returned, two former ministers were present and the beauty of the old church with its new carpets, decorations, lights and accessories was seen.

For the service, Rev. S. M. F. Nesbitt of Wooster, O., and Rev. A. B. McCormick of Oil City, both former pastors, were present and participated in the services both in the morning and evening.

In the morning the Sabbath school observed rally day with the class rooms packed. Promotions were made and the usual rally day activities presented. George R. McClelland was in charge of this service.

At 11 o'clock Rev. S. M. F. Nesbitt delivered the sermon, his theme being "The Greater Works". At 7:45 Rev. A. B. McCormick, now editor of the Presbyterian Banner, delivered the sermon. The evening service was a union service in which the four Presbyterian churches of the city and the First Christian church joined. Dr. John J. McIlvaine, Rev. D. C. Schnebly and Rev. R. J. Fredericks assisted.

The newly decorated church presents a handsome appearance with all of its new dress. Old in tradition and service, the Central Presbyterian church today looks like a new church on the inside.

Mussolini Sees Arms Factory

Escorted Through Krupp Arms Factory By Hitler During Day

By PIERRE J. HUSS
International News Service Staff Correspondent

ESSEN, Germany, Sept 27.—Reichsfuehrer Hitler today lifted Germany's rearmament curtain for Premier Mussolini of Italy at the vast Krupp arms factory here.

Yesterday Il Duce was impressed by the men of the German army in their maneuvers near Mecklenburg. Today for two hours he feasted his eyes on the machinery back of that army.

Escorted by Hitler, Mussolini walked with unconcealed amazement through the endless paths of the shops, hitherto guarded with the greatest care from the eyes of the world.

The visitors saw hundreds of small cannons, mortars and tank parts pouring incessantly into waiting molds, with Hitler and Krupp von Buehlen und Halback, president of the factory's board, quick to explain any types particularly catching the Italian's eye.

By conducting Il Duce into the heart of the gigantic arms factory, Hitler meant to convey unspoken assurances that henceforth there will be no secrets between them, it was believed.

BRITISH TANKER SENDS MESSAGE

(BULLETIN)
(International News Service)

LONDON, Sept. 27.—For the second time in less than a week, England was electrified today by news the long-missing yacht Endeavour I, one-time challenger for the America's cup, has been sighted safely at sea.

The first report proved erroneous but the second, flashed to London by Captain V. Alcock of the British tanker Cheyenne, difinitely located the sleek-hulled craft.

"We have found the yacht Endeavour," the master's laconic message said. He gave its position as 260 miles southwest of the Eastnet lighthouse on the southwestern tip of England.

The Cheyenne's message indicating Endeavour was making a dead reckoning for a landfall at Eastnet caused jubilation in English yachting circles. Shipping men interpreted it as confirming their steadfast faith that Captain Ned Heard's brilliant seamanship and navigation would bring the yacht safely across.

Fire Damages Home Saturday

Loss Of Around $1,500 Sustained In Blaze In Massie Apartments

CAUSE OF FIRE IS UNDETERMINED

Fire of undetermined origin, which started in the third floor apartments occupied by Robert and Edwin Garvin, at 213 East Grant street, Saturday afternoon at 3:40 o'clock, caused damage of $1,500 covered by insurance.

Three departments were summoned to the scene by an alarm from Box 14, and firemen found the blaze spreading around among the rooms on the third floor of the structure, which is owned by Mrs. George Massie. They succeeded in confining the blaze to the third floor, but it was virtually gutted.

Two other alarms were answered by firemen over the week end. At 8:15 p. m. Sunday, they were called to the home of Duncan Rahn, of 1010 Wilmington avenue, where the furnace had become overheated and set fire to dust in the hot air pipes. There was no loss.

At 8:20 p. m. Sunday, an alarm was sounded from Box 56, but firemen were unable to find any fire in the vicinity.

DJIBOUTI, French Somaliland, Sept. 27.—Rising with desperate ferocity against their Italian conquerors in the north, Ethiopian tribesmen have massacred the entire Italian garrisons and civilian population in Makale, Adowa and the holy city of Axoum.

First Report Of Submarine Entering Warfare Against Defenseless Chinese

(BULLETIN)
(International News Service)

HONGKONG, Sept. 27.—Killing at least 100 women and children and 200 men, Japan has resorted for the first time to submarine warfare, according to ten survivors from sunken junks who arrived today aboard the German liner Scharnhorst.

British police immediately opened an investigation since it was understood that some of the junks were from Hongkong and under British registry.

Bring Pitiful Story

Bringing back a pitiful story of scores of wounded men, women, and children screaming and struggling in the water, the handful of survivors said the attack occurred while the crews of the junks were fishing off Cheelongkau Point Sept. 22.

Suddenly a Japanese submarine rose to the surface, and opened fire on the crowded fleet from a half-mile distance. A steamer nearer the fishing fleet simultaneously joined in the attack.

Flounder And Sink

Junk after junk was hit and sent to the bottom, while the crewmen and their families, many of them badly wounded, floundered about in the water. Only one boat managed to hoist its sails and escape.

For five days the few survivors clung to a rough raft. One of them was a woman. All are in horrible physical condition.

They told officers of the Scharnhorst that the submarine made no attempt to rescue any of them.

Naval authorities here pointed out that the attack, if it occurred as described, was in violation of the codicil to the London naval treaty of 1936 aimed to humanize submarine warfare.

Japan, although she refused to sign the treaty, adhered to the submarine agreement.

Most of the junks came from the Canton district or from Nacao, which is owned by Portugal.

New Chairman To Lead Battle

G. Edward Green Is Optimistic On Future Of Party In State

NEW SECRETARY TO BE SELECTED

By TONY S. SMITH
International News Service Staff Correspondent

HARRISBURG, Sept. 27.—Loosed temporarily from the shackles of factional dissension, a rejuvenated state G. O. P. elephant today plunged into the fall election campaigns, laying groundwork for the 1938 gubernatorial campaign as it went.

Trumpeting optimist and guided by its new leader, State Chairman G. Edward Green, the Republican party embarked on what members hoped was "The Road Back" to the political fortunes of old, when the elephant was king of the commonwealth's political domain.

In a substitute capacity, Green rode his elephantine mount well during the permanent registration drive and succeeded in docketing nearly 150,000 more potential voters than the Democrats.

It was this, coupled with the necessity of side-tracking possible factional squabbles, that gained for Green a unanimous mandate to carry on from the 144-member state committee, meeting in special session at Altoona Saturday.

Resting at his Edgewood home, the new chairman let it be known that the first order of business under his regime would be the selection of a committee secretary and circulation of the report submitted to the Altoona meeting by the Republican crusaders of Pennsylvania.

At Bonneville Dam Tuesday.

Tomorrow, at Bonneville dam, in Oregon, it was almost certain the chief executive would expound on this subject. He is making an address there which will be one of the two of the entire trip to the Pacific to be nationally broadcast. The other also will come tomorrow at Timberline lodge on Mt. Hood.

Wednesday will find the president and Mrs. Roosevelt in Seattle for a stay at the Boettiger home and Thursday the president will board a destroyer and cruise up to Victoria to pay a courtesy call on Lieutenant Governor Hamber of British Columbia.

The president's first visit to Yellowstone left him enthusiastic over the scenic grandeur of the park. Making his 12th rear platform appearance since leaving Washington at West Yellowstone last night, he told an appreciative crowd that he and his family had "had two wonderful days".

In conference with officials of Wyoming, Montana and the park, the president agreed to communicate with Secretary of the Interior Ickes about his appeal that an economy order be rescinded which forced the park to close early. He promised to support the idea.

Late last night a good crowd gathered around the rear platform at Idaho Falls, but the president had retired. Mrs. Roosevelt went out and greeted them.

Attacks on Nanking, made in spite of rain and fog, were concentrated on surroundling sections, and the government section of the city remained unscathed.

But the basic explanation of Labor's troubles is that too many people prefer a weekly pay check to a harvest in the fall.

FAITH

We see by the paper that there is talk of enforcing the 44-hour-a-week labor law with Undertakers. It will be a nice state of affairs if someone gets hurt on the highway or someone has a death in their home, Saturday about noon, and there will be no one to take them to the hospital or take care of their dead until Monday morning, or if someone needs an abulance after five o'clock in the evening, he will be unable to get one until the next morning.

It seems our lawmakers care nothing about the suffering or the service to the people. They have forced the railroads to lay off 25,000 men, and there is many a business place leaving Pennsylvania because they can't make a living. The stock market has gone down to the bottom. Hundreds of people out of work, and necessities of life higher than they have been for years.

Are they unable to see the results of their actions? Things like this are what drove our forefathers to fight for freedom.

THE QUESTION IS:
DO SMOKERS APPRECIATE CAMEL'S COSTLIER TOBACCOS?
THE BEST ANSWER IS:
CAMELS ARE THE LARGEST-SELLING CIGARETTE IN AMERICA!

IS it good business to spend millions more for costlier tobaccos? Well, the fact that Camels are the largest-selling cigarette shows that men and women *do* find something choice — something different — in Camels. Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic.

AMERICAN LEGION CAPTURES NEW YORK IN BIG OFFENSIVE

Regent Theatre Gets This Subject Exclusively In New Castle

Entire Reel Is Dedicated To The Legion

The current issue of the Universal Newsreel is proudly dedicated to the American Legion and the war veterans' record-breaking convention in New York City.

The Legionnaires take the Big Town by storm. For eighteen hours, through bright autumn sunshine and the darkness of night, members of the Legion parade through Fifth avenue, cheered by a throng of Three Million Gothamites who shout themselves hoarse as the endless lines of marching men trudge doughtily up New York's great parade-ground.

Scores of bands, bright in varied costumes, supply the martial music that keeps the thousands in step, and makes the blood run faster in the veins of spectators. Bells and whistles on "Forty and Eight" locomotives rend the air in a crescendo of sound.

New York's police struggle with the immense crowds, struggle smilingly, striving to protect members of the dense-packed mass of humanity from injury.

This is a complete reel, not merely a flash clip. This news issue can be seen exclusively at the Regent theatre today, Tuesday and Wednesday only. James Cagney's latest picture, "Something To Sing About" will be seen Plus Three Stooges in "Back to the Woods".There will be no advance in admission prices, but please arrange to come early for good seats.

WELCOME PLAGUE CAMPAIGN

IT IS Franklin Roosevelt, as an individual and himself a sufferer from infantile paralysis, rather than President Roosevelt who has announced that a foundation will be formed for a broad-scale campaign against the dread poliomyelitis, seeking to co-ordinate efforts now being made in various quarters to find the cause of, to prevent, to cure and to augment after-effects remedies of the scourge now sweeping parts of the land.

It is a timely proposal. The plan will leap minor problems of ethics, technicalities, professional guild orthodoxy and delayed co-operation, and will inspire a general new emphasis on a plague which has sprung suddenly to the fore, baffling and insidious.

For several years balls have been held over the land on January 30, the President's birthday, the bulk of the proceeds going to the Warm Springs Foundation in Georgia, of which Mr. Roosevelt is head, and where twisted, helpless bodies are slowly nursed back toward normalcy. This year the institution obtained $340,000 from these balls, and it will properly remain a nucleus of the proposed larger foundation.

With nearly 6500 new cases reported this year, striking down children and adults and in many cases crippling them for life, there could hardly be a greater need than this unique experiment in broadening the field of medicine to attack a major ailment on all fronts. Mr. Roosevelt's envisioned foundation, if evolved and conducted in practical fashion, undoubtedly will rank with other huge health research projects, and may prove a turning point in what at this moment is a losing fight on man's newest major disease enemy.

BEHOLD CONGENIAL AUTUMN

These are Nature's busiest days. There is a great deal of altercation to be done in the landscape, new drapes of gold and bronze and purple to be hung in the hills and on the mountainsides, new carpets in the fields and the valleys. New flowers, perhaps the fairest of the season, stalwart things that stand with courage and with dignity while the advance guard of Winter drives forward, must be summoned forth to give their final touch of beauty and splendor to the changing scene.

"How bravely Autumn paints upon the sky the gorgeous fame of Summer which is fled," wrote Hood. It is this great task of transformation which Nature, with infinite skill acquired through the ages, is about to begin. Neither Titian, nor da Vinci, Raphael, Rembrandt nor Angelo, with all of their mastery of brush and pigment, could paint a scene calculated to stir so deeply the spirit and the soul.

KITCHENETTE FARMING

To future yearners for the good old farm, going back home will mean merely pushing open the swinging door to the apartment kitchenette, if an ingenious device known as the "nutrient tank" gains the estimated measure of popularity.

This is a tank of water, to which are added all the minerals needed to speed the growth of any given crop. It promises to result in the introduction of truck farming into every home in the nation.

And who will deny that the "nutrient tank" proffers more fun than the little dish gardens the girls used to leave lying about on table or radio top, wherein grew a weedy grape-fruit sprout or baby cactus with colored stones, bits of moss and maybe a mirror to give the effect of a lakeside pleasance?

You see, the "nutrient tank" idea is so much more serious than cute dish gardening. And talk about domestic economy! Just think of the budgetary savings to be derived from this tank-war on the high price of spinach.

BOOKS ARE CIVILIZING

Among the more precious gifts enjoyed by man is a love of books, those magic windows through which even the most sedentary citizen is enabled to look beyond the most distant horizons and envision other lands, times and peoples. Those without this love are poor indeed, though they may have a town house and a place in the country, two cars in the garage and a chicken in the pot. Those who have it are rich beyond the dreams of avarice.

If not possessed, this love of books should by all means be cultivated. Its benefits are presented clearly by Alvin Johnson, a speaker recently before the American Library Association.

Mr. Johnson praised gluttonous, self-forgetful reading. Humanistic books, he said, the books read for personal pleasure or instruction, helped to nullify the little things that embitter men's lives, helped to keep their minds on a level keel, helped men to penetrate the lives of others, helped to dispel prejudice. In brief, made men humane, civilized and understanding.

No one familiar with the part played by books in many lives will question the accuracy with which Mr. Johnson has appraised their value. It is not an excessively broad statement to say that the book does indeed contain within its covers the civilization of the future.

POWER OF SUGGESTION

As we seem to become more and more sensitive to temperatures in the United States and quite unable to endure with fortitude the summer heats and winter colds that our ancestors accepted as a matter of course, we see a great variety of ameliorating devices coming into use says the St. Louis Globe-Democrat. Especially is this so in tempering the calorifics of summer. The influence of mental suggestion is sought. Psychology must also serve in inducing bodily comfort. Wall papers are now made to do what they can. A design for a cool looking room in the summer time is called "Pride of the Arctic." It consists of a colony of polar bears who seem after one has gazed at them for a while, to be floating around the room on ice floes. Then there is another device representing a deep forest of shady trees, thru which one can barely discern the horizon. We can call up another fancy: Cascades of ice cream or pineapple sherbet tumbling from Greenland icebergs; or a frieze of icicles and a dado of Canadian snowdrifts, all sufficient to at least generate a chill ascending the spine as one enters the room.

Conversely, one imagines that in winter the wall paper might be changed to scenes of a forest fire or, more sardonically, the eternal flames of Pluto's kingdom—or perhaps the fiery puddling in the steel works. Would such pictures enable one to get along with one less blanket on the bed?

Loafing is natural unless one is taught to work, and this is especially true of the conscience.

The Parent Problem

By Garry C. Myers, Ph. D.

ADAPTING CHILDREN SOCIALLY

Until your young child entered school he may have had few problems in relation to other children. Perhaps you selected his playmates and kept him from certain children of the neighborhood and these children from him. Perhaps he learned to look upon them with contempt and so to speak about them or to them.

But as soon as he entered school, he began to complain regarding certain children who tease and bully him. Mayhap they are the very children you so carefully kept away from this child. Your child's problem is not easy; neither is yours.

You will hardly get best results by upbraiding the offenders or complaining to their parents about them. Even if by doing so you should protect your child from these annoyers, there probably will soon be others just as bad or worse until your child is changed. There is something about him which invites their teasing, and that something had been growing for years while you were keeping him away from the other children and them from him.

Now you can't bear to see your child so greatly imposed upon, to be sure; yet you can be certain that he will have to endure many more indignities before he learns to adapt himself socially to the larger group: he will have to pay with compound interest now the price you prevented him from paying earlier.

Make it clear to him that calling names and crying only cause the other children to tease him more; and that he will get nowhere by fighting with sticks and stones or from ambush.

Education in Neighborhood.

He can get best social education right in the immediate neighborhood. Don't go off your premises, as a rule, to settle his quarrels. Let him come away when he cannot take his own part, but encourage him to be out among the gang. Warmly praise him for his success there. He may win his way by acquiring skill at games and at craftsmanship with tools, winning them to join with him in making things.

Try to get into the good graces of the bully of the neighborhood. Invite him to your premises and help him enjoy pleasure at doing right there, letting him know he must leave when he violates the reasonable rules or your place. Hire him occasionally to run an errand for you. Tell his parents in his presence of good things you know about him. It might not be bad to take him to a movie with the family. Try to get him into scouting.

All Of Us

By MARSHALL MASLIN

DO YOU LOVE THE PAST?

I have learned that living in the past is a dangerous thing for human beings to be doing—much more dangerous than visiting the zoo and trying to pet the handsome lion in the cage.

Yet, I have met many men and women who look back toward the past with much more pleasure than they live in the present or look toward the future. Their greatest joy is in remembering what they used to do, what they used to be and hardly a one of them will admit that the fun they get out of remembering can be a menace to their happiness—or that it is a confession that they have STOPPED LIVING.

I'm not being so silly as to suggest that we should blot out the past the instant we have lived it. That's impossible, and any attempt to do that would be absurd and we would be robbing ourselves of riches . . . Nor am I saying that two old friends should not get together and match memories of their youth. It is not dangerous to call up the past occasionally and savor its charm and delight.

But to that constantly, to drag out the past only to compare it disadvantageously with the present is to make a drug of our memories. The past is no better, it is no sweeter, than the life that is around us now. The flower that bloomed in 1905 was no fairer than the blossoms of 1937. The youths we remember were no stronger, no finer, than the youths of today. Life changes, but not so swiftly as all that . . And if we attempt to set up the argument that yesterday was so much finer than today, we are but confessing our own defeat and unhappiness. We have given up. We are accepting no challenge today. We are praising yesterday merely because we were young then, with our unattained dreams ahead of us. We are admitting that we have lost the fair fight, and have no heart for the busy endeavor of today . . . We have retired to the sidelines and are mere spectators bewailing the remembered prowness of other days.

Look deep within yourself and ask if this is not the truth.

TODAY'S STORYETTE

Mrs. Dulham was complaining that she never could find topics for conversation.

"Why don't you read books?" asked a friend.

"What kind of books?"

"Oh, biographies and histories and so on."

The fruit of this advice was evident a few days later, when a visitor called.

"Wasn't it very sad", Mrs. Dulham remarked, "about poor Mary, Queen of Scots?"

NO TIME FOR FOOLIN'

A certain noted temperance worker was strolling through one of Washington's parks and noted a man stretched out on the grass, his hair tousled and face flushed. Concluding that the man was under the influence of alcohol, he paused to chide him gently:

"My friend, did you ever stop to think that if the price of a drink of liquor had been put out at compound interest at the time of the Queen of Sheba's visit to Solomon it would now amount to $7,921,763,11?"

"No," answered the prone one, "but I'm somewhat of a statistician myself and I'm telling you that if you aren't 121 feet from here in 9 seconds, I'm going to hit you on the nose 23 times annd cause you to see 13,791 stars. Good Taste

Reg. U. S. Patent Office

By Francine Markel

DEAR MISS MARKEL—Is it permissible for a bride to exchange any of her wedding gifts for something for which she has greater need?—PROSPECTIVE BRIDE.

Answer—Such exchanges should be made only in case of duplicate gifts and even then this should be done only when the donor is well known to the bride or when she has been given permission by the donor to do so. Some thoughtful people send a note along with their gift telling the bride where the gift was purchased and that it may be exchanged if she has a duplicate of it.

Brides should not make a habit of exchanging gifts nor should they do so merely because they are at odds with a donor's taste.

Gifts that are marked are not returnable.

Canada Draws Closer To Us. People Have Similar Views. Look To Navy Of Americans.

By LESLIE EICHEL
Central Press Columnist

CANADA IS drawing closer to the United States. This is natural, when two such similar peoples live in close proximity, speak the same language and have a similar outlook.

There is, however, another reason: the American navy.

Great Britain is criticized in Canada for permitting her navy to lapse, in the belief that a naval race would be the path to war. The "blame", if blame it is, falls on Ramsay MacDonald, who as prime minister had a vision of world peace through treaties and understandings.

The United States held aloof from the treaties and world conferences, although it did begin to dismantle part of its navy. In recent years, however, the United States — particularly under President Roosevelt —has spent enormous sums on its navy.

Those sums are: 1934, $297,000,000; 1935, $436,000,000; 1936, $564,000,000; 1937 (estimated), $609,000,000.

The London naval treaty became inoperative in 1936, and a free-for-all began. Germany already had been building secretly, and Italy had added hugely to its submarine force, much to the discomfiture of England.

Japan already had denounced the treaty in late 1934, upsetting Great Britain and the United States.

Japan, however, apparently now is outdistanced by the United States, by a fair margin, as Japan cannot afford to spend on a navy what the United States is spending.

The United States, too, has "bridged" the Pacific with an air line and potential aviation bases.

Now all that sounds comforting to Canada—and Australia and New Zealand. For Great Britain's fleet is kept around Europe by the Fascist threats there.

* * *

A KINDRED NATION

Canada is a nation kindred to the United States in so many respects that the mother land is having difficulty understanding it. And the younger generation of Canadians are losing patience.

Each British dominion is a separate entity unto itself, bound to the empire by no more lasting tie than reciprocal understanding and defense. And, up to the present, British tradition, which is the deepest of traditions.

But when the United States, nearby, appears to move swiftly with a New Deal, and the British manner of thinking seems sluggish, then the Canadian of the second and third and fourth generations begins to yearn for American ways—whether they be good or bad.

Canada is not growing as it should. Along with the United States, it shut off immigration. But, unlike the United States, it has insufficient people to develop its resources. Thus it has become stagnant in many regions. It lacks not merely the hands and the minds, but the eager youthfulness that immigration brings, the inspiration to push ahead.

This is in contrast to Mexico, to the south of the United States, which, with its more volatile people, is developing not merely its resources, but an entirely new social system. Whether other people like that system or not does not matter. It indicates a nation of strong energizing force, a people developing.

* * *

TORONTO TO LEAD?

Montreal since the beginning has been Canada's largest city.

But today Toronto is the most modern city, the most energetic, the most American.

Yet, even Toronto will not suffice for Winnipeg, Vancouver and other western cities. They have become so American minded that they no longer heed eastern Canada.

Thus, if and as Toronto passes Montreal, it may in turn have to surrender to Winnipeg, the metropolis of western Canada.

The World AND THE Mud Puddles

THAT CAVE AGAIN

There are married couples still living in New Castle and Lawrence county who spent their honeymoon visiting Mammoth Cave, Kentucky. In bygone days Mammoth Cave, together with Niagara Falls and the Nation's Capital, were the three meccas for all brides and bridegrooms, and now Mammoth Cave is again in the limelight.

Its pre-Columbian mummy, regarded by archeologists as the most interesting relic of its kind as yet discovered east of the Mississippi, now displayed in his new moisture-proof case, is proving such a drawing card that all-time travel records are being broken at the famous Kentucky caverns.

In one day recently there were 2,363 paid admissions to the Cave, with 3,044 people routing their travel through the area, which is now administered by the National Park Service as Mammoth Cave National Park.

Scarcely less interesting to scientists than the mummy is the method worked out by Ned J. Burns, acting chief of the Museum Division of the National Park Service, for insuring its permanent preservation. Months of effort and research were spent by Mr. Burns, cooperating with Robert P. Holland, acting park superintendent, in which leading chemists and museum authorities of the country were consulted. Success eventually crowned these efforts and today the thousands who throng to the site may view the desiccated body resting in the same posture, but a few feet from the same spot, where it lay for untold centuries. Suspended over the place where the CCC enrollees discovered the body is the five-ton rock which caused the death of the pre-historic miner as he delved, far underground, and at least two miles from the only entrance to the Cave then in existence.

Just Folks

By EDGAR A. GUEST

THEY'RE LAUGHING NOW

They're laughing now! And strangest thing,
About the old dead worrying
And fretful times they used to know
Back in that vanished long ago
When they were married first, and he
Had just his weekly salary.

You'd think 'twas fun, to hear them say
How he would walk to work each day
To save the car fare and afraid
They couldn't get their gas bill paid.
And how they worked for months before
They had a rug upon the floor.

And they are boasting, too, about
The time he wore his trousers out
And she put in a patch so small
You'd hardly notice it at all.
He loves to tell that tale again,
Although it wasn't funny then!

They're laughing now! And seems to me
The old dead cares have grown to be
Their happiest memories of all,
As if there's nothing to recall
So sweet as all those troubles grave
When love was young and very brave.

MONDAY, SEPT. 27

Once Upon Sept. 27—While the fame of Detroit's outspoken Rev. Father C. E. Coughlin was in the ascendency, attention was called to two priests who earlier were important figures in the American political scene. There was Rev. Father Gabriel Richard, another Michigan preacher, who was elected to congress; and there was Rev. Father Edward McGlynn, who was born 100 years ago today in New York City, where he became a power in his forties.

Father Coughlin has never been a more controversial figure than Father McGlynn wos in the eighties, when he was pastor of St. Stephen's church, which had the largest congregation in America.

An avid champion of the Single Tax theories of Henry George, the Protestant author of "Progress and Poverty", Father McGlynn took the stump against Theodore Roosevelt in the latter's race for mayor of New York against Henry George and Abram Hewitt. The latter won; Roosevelt ran third.

Father McGlynn's political activity in defiance of warnings of bishops caused him to be ex-communicated from church a half century ago this year. He formed the Anti-Poverty society and continued to advance the Single Tax theory. Within five years, however, he was absolved from the ex-communication and restored to his priestly duties.

Does this writer err in referring here to religious events and personalities? Please tell him. After a recent reference here to the St. Batholomew's Day massacre, the Rev. Cletus Brady wrote us reprovingly from Akron.

He questions the statement that 70,000 were killed in the massacre, and declares it was not a religious uprising.

"The massacre lasted over a period of six weeks," he states. "How many were killed will never be accurately known. Contemporary and modern historians range from 2,000 to 110,000 . . . The Huguenot Martyrology of 1581 could only obtain the names of 786.

"Catherine de' Medicis . . . had no zeal for the Catholic religion. She was a free thinker of the school of Machiavelli, bred in the worst traditions of the Italian tyrants, and

WASHINGTON AT A GLANCE

President Must Wait For Data

Will Not Know How Successful Western Trip Has Been Until Next Spring

LAWMAKER KNOWS HIS OWN DISTRICT

Central Press
Washington Bureau
602 Times-Herald Bldg.

By CHARLES P. STEWART
Central Press Columnist.

WASHINGTON, Sept. 27.—How much real information President Roosevelt will acquire from his tour of the west and northwest is problematic.

Next spring's primaries will begin to tell the story.

The primary verdict will be subject to ratification, or a veto, on election day in November, 1938. However, the primaries will serve as a fairly dependable basis for guessing as to the subsequent election day result.

The presidential tour, no matter what it may seem to indicate, cannot be so enlightening.

* * *

KNOW OWN DISTRICTS?

My own theory is that a senator or representative is likely to understand his own state or congressional district more intensively than President Roosevelt or Democratic National Chairman Farley possibly can know it.

The president and Farley doubtless know the whole country better than any individual legislator knows it, but probably not so well as that lawmaker knows his personal bailiwick. And if a considerable number of lawmakers deem it safe to defy the White House, each in his particular state or district, my conclusion is that there must be a correspondingly considerable number of spots concerning which the White House probably is mistaken.

And we are aware that the number of these defiant lawmakers is, in fact, considerable.

* * *

SURE OF RECEPTION

Of course a president of the United States, touring the country, is sure to get a grand reception at each whistling post at which his train stops.

The local party chairman comes on board. So do the postmaster and other administration appointees. All these are loyal "yes men". The president of the Chamber of Commerce, the mayor and the prominent citizens generally may or may not be equally pro-administration in the ack of their minds, but they are bound to be hospitably pleasant.

The crowd yowls in the background.

But to what extent does this enthusiastic yowling signify actual sympathy with administration policies? To what extent is it merely a vocal welcome to a superly-distinguished visitor?

* * *

STEWART IS SKEPTICAL

I have lived in the "sticks" myself.

I have seen and heard a Democratic crowd yell for a Republican president and vice versa. In great part it was mass politeness only.

I do not question that a president's appearance at one of our Podunks makes a certain number of votes for him there. But will it be a decisive number?—if he has not a pretty liberal majority there anyway?

I should surmise that President Roosevelt will come home from his northwestern tour satisfied that he has that section of the country "sewed up" regardless of such senators as Burton K. Wheeler, Edward R. Burke and Joseph C. O'Mahoney. But I think it will be a superficial conclusion. It MAY be right, but I am skeptical.

* * *

STRAW VOTES

What straw votes are worth is a matter of opinion.

We had one, widely advertised, that was ridiculously wrong.

More recently we have had others that many folk incline to accept as reasonably significant.

They appear to imply that, although the president has slumped somewhat, he still is mightily popular personally. Yet his kind of personal popularity does not necessarily mean that his congressional opponents will not be renominated and re-elected in 1938.

If so, he still will have a hostile congress on his hands.

His tour is interesting, but it is largely a matter of "hollering". It does not prove anything.

Parkers Are Trifle Fooled At Union High

Chain Across Union Yard Entrance Damages Would-Be Parkers' Cars

During the past year a great deal of trouble has been encountered by night automobile parking and petting parties on the grounds of the Union township high school on Scotland Lane. School authorities have taken action to stop the practice.

Since the summer vacation at school began, W.P.A. workmen have been engaged beautifying the school property with an attractive stone curb and stone pillars at all drive entrances. This work is nearly completed and two beautiful stone pillars have been erected at the main entrance to the school property.

Between these two pillars the school authorities have placed a heavy chain and locked the ends fast to the pillars. This chain has very efficiently kept parkers out of the grounds since its installation.

However, the chain did not stop attempts to park in this place, and there is evidence that two machines have tried, but unsuccessfully, to gain entrance to the grounds.

About one week ago when the school staff arrived in the morning they found that one of the pillars had been pulled down when the chain was struck. Evidence of damage done was found in the shape of broken headlights and part of the front of a machine.

Again, during the week end another motorist made an attempt to pass through between the stone pillars but failed. Again the pillar was pulled down, and some pieces of automobile were found strewn on the ground.

According to Milton Pattison, principal at the school, police are watching for the persons who have caused this damage and they are also keeping their eye on the school parking lot.

Noted Here And There In Other Newspapers

Someone remarked that this column was getting pretty hot, so we'll cool down today, and let the excerpts concern our more remote friends, the animals, the fish and the birds. Anchors aweigh!

Roy Gore, night watchman at the Pigeon Lake CCC camp at Drummond, Wis., hereafter will call out traditional "Halt, who goes there?" before he attempts to stop any more night prowlers. Gore saw a shadowy form trying to slip into camp after curfew. He ran forward, and wrapped his arms around an indignant, five foot black bear. Neither parties cared for the hug, so one took the high road and the other took the low road.

A bird with a taste for tobacco caused the Fremont, Neb., fire department several busy moments. Firemen hurried to Earl Grant's home, ready to battle a blaze. Instead they found a burning bird's nest 35 feet up in a tree. Fireman Willis Lind climbed the tree and doused the flaming nest. He reported the bird apparently carried a lighted cigarette butt home with her.

When fox chases hound, that's news. George Heath, of St. Johnsville, N. Y., owns the hound, and when a fox was caught in the vicinity Mr. Heath decided to give it a sporting chance at this thing called life. He released it from his cage and to his hound shouted "sic 'em!" The fox did. The hound fled, with tail between his legs.

First off, it might be said that any person interested in having a polar bear for a pet can get him at Seattle, Wash. for $300. (Gee, ma! He wouldn't be any bother.)

R. B. Graham of Sharon, was fishing near Orangeville and felt a strike on his line. When he pulled in the line he found a large-sized shoe on the hook. Taking the shoe in hand he attempted to dislodge the hook. As he did a catfish flopped from the shoe to the bank. And, skeptical friends, Mr. Graham managed to grap the fish before it could return to the water. So there!

Policeman Theodore Lambert, of Chicago testified that Larry Radkewicz of Berwyn was intoxicated while driving an automobile, but said he could not smell the man's breath. "Why not?" asked Judge J. M. Braude. "He had a goat in the back of the car," said Lambert, "and I couldn't smell anything but the goat!"

On Court House Hill

John Jacobsen, of Mahoninng township, has filed nomination papers for supervisor on an independent ticket. Adam F. Butch has filed for school director on the same ticket. In Wayne township, Andrew Leech has filed on an independent ticket for supervisor.

All the jurors who were in attendance at Lawrence county court last week were dismissed on Saturday, some of them in the morning and the others at noon. Another jury summoned for this week, will hear the remaining cases on the list.

Judge W. Walter Braham gave a very clear definition of what constitutes the crime of false pretense in a charge to a jury Saturday. Briefly, it is this: When a person makes a representation to another person for the purpose of deceiving such persons, causing him to part with money or property, the person making such statement is guilty of false pretense.

County Commissioners George Bolinger and Floyd Cotton, who with their attorney, William McElwee, Jr., went to Pittsburgh to interview Highway Department Superintendent Burke for this district, relative to the Edenburg-Hillsville road, were not able to accomplish much. They were told that if the plans as presented are approved the department will go ahead with the road. The commissioners object to approving plans which call for an 18,000 bridge and a couple of underpasses, but they are willing to assume the property damage that would ensue from the building of the road. They do not believe that the bridge and the underpasses should come under the head of property damage. They will confer again with officials of the limestone companies and may then go to Harrisburg to present their view of the situation to the State Highway Department head.

Prohibitionists of Scott township have filed nomination papers at the county commissioners office for the following local ticket. Assessor, S. H. Hunt; inspector, Mildred Allison; judge of election, Margaret Peebles. The names will be placed on the township ballot for the November election.

The odor of liquor on a man's breath is a strong presumption that he is intoxicated, especially when the police pick him up after a motor accident. This was indicated in several cases heard at court last week. In one case the motorist admitted that he had several glasses of beer about 5 o'clock, but claimed that he was sober when his car became involved in an accident around 9 o'clock, but there was the telltale odor on his breath and other evidences that led to his conviction. It is being demonstrated daily that liquor and gasoline won't mix and the sensible driver won't try the impossible.

Registrations of rural voters are coming in rather slowly at the county registration bureau, according to Clerk, Thomas Edmunds. So far the average has been only five or six a day. With around eight thousand voters still unregistered, there will have to be considerable speeding up if the county is to register a normal vote.

An appeal to the supreme court has been taken in the case of C. W. Knox against William E. Noggle. The case is one in which Noggle had given a $5,000 mortgage to Knox, covering five or six tracts of land in Big Beaver township. The mortgage was foreclosed by Knox, when the principal sum with interest and costs amounted to $6,310.28. At a sheriff sale Knox bought in the property expecting to get possession. Among the tracts of land involved were one of 44 acres with a brick house and other buildings; one of 25 acres with a five room frame house; one of 81 acres with a six room house; one of 75 acres with a shed, and another in which the mineral rights were involved. Noggle failed to move off the property and when Knox started proceedings for a writ of possession, the real battle began. Noggle's attorney maintained that the mortgage only covered three of the properties, and the others were taken by reason of the bond. It was charged that the sale of all of the properties on the judgment based on the bond, was illegal under the act of July 1st, 1935, generally referred to as the deficiency sales act. The court upheld the contention but later reversed its opinion, following an opinion by the supreme court on the constitutionality of the law. The defendants claims the mortgage was given before the legislature had passed the deficiency judgment act. It is to clear up the situation that the case is being appealed.

How Constipation Causes Gas, Nerve Pressure

When you are constipated two things happen. FIRST: Wastes swell up the bowels and press on nerves in the digestive tract. This nerve pressure causes headaches, a dull, lazy feeling, bilious spells, loss of appetite and dizziness. SECOND: Partly digested food starts to decay forming GAS, bringing on sour stomach (acid indigestion), and heartburn, bloating you up until you sometimes gasp for breath.

Then you spend many miserable days. You can't eat. You can't sleep. Your stomach is sour. You feel tired out, grouchy and miserable.

To get the complete relief you seek you must do TWO things. 1. You must relieve the GAS. 2. You must clear the bowels and GET THAT PRESSURE OFF THE NERVES. As soon as offending wastes are washed out you feel marvelously refreshed, blues vanish, the world looks bright again.

There is only one product on the market that gives you the DOUBLE ACTION you need. It is ADLERIKA. This efficient carminative cathartic relieves that awful GAS at once. It often removes bowel congestion in half an hour. No waiting for overnight relief. Adlerika acts on the stomach and both bowels. Ordinary laxatives act on the lower bowel only.

Adlerika has been recommended by many doctors and druggists for 35 years. No griping, no after effects. Just QUICK results. Try Adlerika today. You'll say you have never used such an efficient intestinal cleanser.

Once again the junior band of the Perry S. Gaston Post, No. 343, of the American Legion, showed the way to a large field of competition. Once again they are national champions in their class. Proud of the accomplishment of the American Legion Junior Band, the management of the Cathedral Theater will show them on the stage as a special added attraction on Tuesday night, Sept. 28. Come up and show the boys you appreciate their achievement. They will play the number that won first place for them, and also other numbers.

AERIAL BICYCLE IS NEWEST IN INVENTION FIELD

(International News Service)

VIENNA—An invention which would enable man to walk on the clouds, or rather to ride a sort of aerial bicycle, is claimed by Robert Sottler, a young Austrian mechanic.

His apparatus consists of two umbrella-like structures placed one above the other at some distance on a common shaft.

Driven by hand and foot pedals the apparatus can rise almost a thousand feet vertical into the air without any other motive force than the man riding on it, according to the inventor.

Sottler claims that he is negotiating with various firms for the wholesale production of his airbicycle, the cost of which would not exceed 150 dollars.

Death Of Babe Unnerves Artist

Unable To Carry On Work When Inspiration For Cartoons Passes Away

HOLLYWOOD STARS GENEROUS TIPPERS

By O. O. McINTYRE

NEW YORK, Sept. 27.—Diary: Bedtimes and musing over a newly framed picture of grandma McIntyre. And a brave letter from Tom Geraghty with all the news of London, a cheer from Walter Catlett and then to the tailor and hatter about some new togs for fall.

O. O. McIntyre

Today came two new house servants, cook and niece, self-effacing folk who said they were Theosophists. For a walk, stopping in to see George and Colette Armsby but they were away and so sat in a darkened cinema auditoire but outside of a whimpering organ nothing seemed to happen. So I dozed.

In the evening, because of George Olsen's insistence to see the new dinner-revue place for which his band tootles. Gay, flashy, pert. But an hour of such tinsel stifles me. And so, my lady and I, early away to Gloria Baker's coming out party at Sand's Point.

Cartoon tragedy: A popular semi-comic strip has been concerned with the little everyday doings of the cartoonist himself and his wife and baby. Not long ago the baby passed away suddenly in its crib. The heartbroke artist is not only thru drawing the strip, but declares he will never draw a strip of any kind again.

Bell hops in de luxe hotels say the most generous tippers are stars from Hollywood. Most of them tip a half dollar for the slightest service and a dollar is not unusual. This same generosity extends to waiters and carriage starters. The cinema folk are in the spotlight from the moment they arrive until they depart an every ace is a topic for whispers. Will Rogers was beloved by bell boys. He was always a dollar tipper. The grandest woman tipper was Sarah Bernhardt.

Observation: No modern writer has the ability of George Ade to land the reader with the opening paragraph.

Sinclair Lewis has become Barriesque in his shrink from the public. After the first flush of his literary skyrocketing he was the life of the party, not only in New York, but in Paris, London and Berlin. Whenever he landed in the world capitals it was excuse for celebration by the literati—and Lewis was the most convivial of the spirits. But for several years he has been drawing more and more into a shell. He retires to lonely farms in Vermont and Connecticut where he sees no one but his wife and employees. When he visits a publisher he has him to lunch at some obscure eating place where there is not so much chance of being recognized. His wife, Dorothy Thompson, in her column features a character she calls The Grouse, who comments on men and affairs. Those who profess to know say The Grouse is Lewis.

Nick Kenny, the husky radio critic, has achieved success in a side line venture that is the hope of millions. A hard-boiled ex-marine, he writes sentimental songs between columns. Among recent hits were "Carelessly" and "Cabin of Dreams". Next to writing the nation's songs, the mass endeavor is to write a newspaper column. The managing editor of a metropolitan daily averages 25 letters a week seeking a columnar berth.

Dictionary didoes: The word Intimity is highbrow for intimacy. And librate (to be poised) recently strolled into my ken, with luculent (lucid, clear) and flavescent (turning yellow). Before that xanthone had to do.

Bagatelles: Lady Astor is considering a daily stickful on world affair for an American syndicate... Bernard Sobel recently sailed for Europe on a half hour's notice.... Even the precise Lowell Thomas once lapsed into: "Whom do you think it was?"

Soup of the evening, beautiful soup!
Soup that the Epicures title Borsch!
I tried it one evening, then—alley oop!
They say it is very delectable—
Gorsch!

Start "Selling" Pennsylvania To Rest Of Nation

(International News Service)

HARRISBURG, Sept. 27.—Into the mails Saturday went nearly a ton of publicity literature to tell the nation that "Pennsylvania has everything."

The State Publicity Commission sent out thirty mail bags, filled with thousands of copies of pictorial highway maps, copies of a guide-booklet and four-color display posters.

"This is a new all-time peak in distribution of literature describing Pennsylvania's scenic and historic attractions," said Secretary of Highways Warren Van Dyke, chairman of the commission, "and comes in response to our wide-spread campaign advertising in newspapers, magazines and over the radio."

The literature was sent to newspapers, motor clubs, chambers of commerce, hotels and other business groups in this and other states.

Autoists Must Have Stickers Or Face Arrest

(International News Service)

HARRISBURG, Sept. 27.—Motorists who do not display inspection certificates are subject to arrest and conviction.

So ruled Attorney Charles J. Margiotti today in an opinion handed down at the request of Commissioner Percy W. Foote, of the Pennsylvania motor police.

"You are advised," he told Foote, "that the vehicle code as amended does permit the arrest and conviction of persons who operate motor vehicles during the enforcement period without displaying a certificate of inspection obtained during the most recently completed inspection period."

Inspection periods are from May 1 to July 31 and from November to January 31. Enforcement periods are the three months between these dates.

Resurfacing Job Soon To Start

The Butler-Slippery Rock road is one of the oldest improved highways in this part of the country.

Fraternity Plans For Celebration

Oldest Fraternity At Westminster To Have Ceremonies November 6

(Special To The News)

NEW WILMINGTON, Sept. 27.—Kappa Phi Lambda fraternity, oldest local fraternity on the Westminster college campus and in the United States, is making plans for the celebration of its founding in 1862, 75 years ago. At the time of its founding, the organization was a national fraternity, and the local chapter was installed at Westminster at the same time it became a national group.

Since that time, the national fraternity has disbanded, and the Westminster chapter is the only existing one bearing the name Kappa Phi Lambda. Although plans are not yet complete, the fraternity has scheduled a dinner and celebration at the New Castle Field club, November 6, according to Howard White, Duquesne senior, president.

Alumni members will meet on the campus Homecoming Day, October 9, to complete plans. On the committee are Hugh Gamble, Robert Gilkey, and Roy Worth, Mercer county; Homer Drake, James E. Chambers and Joseph McFate, Lawrence county; Dr. F. R. Bailey, W. P. Botsford, Dr. H. H. Donaldson, W. M. Orr, and Alexander McNaugher, Allegheny county.

Dr. E. D. Fulton, Beaver; James G. Purvis, William B. Atwell, Butler; John L. Nesbitt, Venango; H. M. Gillespie, Erie; Eugene Carr and Russell Weller, Cleveland; Paul Freed, Youngstown; Charles Ashton, New York City; Jerry Wright, Cambridge, N. Y.; J. S. Shrader, Philadelphia, and Emanuel Krueger, New Jersey.

Pennsylvania Pays More Federal Taxes

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Sept. 27.—Pennsylvania individuals and corporations paid $97,500,439 more in federal taxes to Uncle Sam during the fiscal year of 1937 ended last June 30 than in the previous fiscal period, according to figures released today by the commissioner of internal revenue.

Such collections in the Keystone state totaled $399,877,075 in 1937 as against $302,376,636 in the 1936 fiscal year. This represented an increase of 32 per cent. Such collections in the 48 states as a group likewise increased 32 per cent.

Pennsylvania has 7.86 per cent of the nation's population but paid 8.58 per cent of all federal taxes in 1937. This indicated the state carried more than a fair share of the national tax burden. Pennsylvania was recorded as paying the following proportions of the various classes of taxes: Income taxes, 7.78 per cent; miscellaneous taxes, 9.32 percent; and payroll taxes, 9.21 per cent.

In 1937 as compared with 1936 total income tax collections increased 49 per cent in Pennsylvania compared with 52 per cent in the country as a whole. Corporation income taxes climbed 41 per cent in Pennsylvania as against 43 per cent in the country as a unit. The boost in individual income tax payments was 55 per cent in Pennsylvania compared with 62 per cent in the nation.

The increases in the Keystone State, from 1936 to 1937, were recorded by type of taxes as follows: Corporation income taxes, from $52,718,606 in 1936 to $74,370,256 in 1937; individual income, from $60,061,385 to $93,251,697; total income taxes from $112,779,991 to $167,621,953; miscellaneous taxes, from $184,340,886 to $207,776,449; total taxes, from $302,376,636 to $399,877,075.

The percentage increase in total tax collections was greater in 29 states than in Pennsylvania.

Payroll taxes in Pennsylvania, paid partially by the employer and partially by the employees, totaled $24,478,671 in 1937. These were collected for the first time in 1937 under the Social Security Act and the Railway Retirement Act as contributions to finance old-age pensions.

Federal tax collections in 1937 were greater in Pennsylvania than all states save New York and Illinois.

of Christendom. Her one aim in life was to govern France personally, and to strengthen her power by placing her children on the thrones ruling one of th... most corrupt courts of England, Spain and Poland. She was jealous of both Catholic and Hugenot princes, and played one against the other to gain her ends. When Coligny began to overshadow her and to undermine her influence with her son Charles, she deliberately planned his death. . . .

"The massacre was a dastardly political crime of Catherine who planned it the evening before to avert possible consequences of her attempted assassination of Coligny.

"The king, Charles, declared he had frustrated a conspiracy of Coligny and his followers to kill him and the royal family. This lie was accepted by all the courts of Europe. . . . Upon receipt of this false report Pope Gregory XIII ordered a Te Deum sung in thanksgiving for the king's escape. When he learned the true facts, he shed bitter tears and denounced the measure (Brantome).

"The latest Protestant historian of Catherine says, 'Upon Catherine de Medicis the chief responsibility for the deed must always rest.'"

On Other Sept 27ths: 1825—Stockton & Darlington R. R., first railway to use a steam engine to haul trains, began service. First locomotive engineer was a 16-year-old boy, Eddie Entwistle!

1852—The most successful play in American dramatic history, Uncle Tom's Cabin, had its world premiere in Troy, N. Y., where it ran six months before its presentation in New York City. Mrs. Harriet Beecher Stowe, from whose book, of course, the play was adapted, didn't see it until 30 years later! She never received a penny in royalties.

1886—Raymond Moley, educator, editor and original "Brain Truster". Other birthdays: Nicholas Roerich, b. 1874, artist and mystic; Peter Salm, b. 1924, heir to $40,000,000 estate of the late H. H. Rogers.

1926—Henry Ford voluntarily became the first large industrialist in the world to adopt the 5-day week for his employes.

Mission Launches 25th Anniversary

Program Tonight Continues Jubilee Observance Opened Sunday

Opened Sunday afternoon with an impressive public service in the First Baptist church, the City Rescue Mission's week-long 25th anniversary celebration continued tonight with a special "homecoming service" in the mission auditorium at 8 o'clock.

A near-capacity audience yesterday listened to a stirring address by the Rev. George Soerheide, superintendent of Cleveland's City Mission, and enjoyed the vocal offerings of Chicago's talented Spiritual Jubilee Singers.

Mr. Soerheide, nationally known mission leader, was one of the founders of the local mission organization.

Presiding was the Rev. Archie W. Gibson, head of the mission.

For tonight's service more than 350 extra seats have been added, Mr. Gibson said today, and arrangements have been completed for an exceptional program. The Spiritual Jubilee Singers, who sang Sunday, will also be a feature of the service.

Last night the singers and the mission leaders appeared at the evening services of the Croton M. E. church.

They did not want to be seized and ran away. It was not long until the police radio was crackling out a warning to officers.

Wincek later arrested a man who gave the name of Walters on a charge of suspicion and police now are searching for an alleged companion.

"I HAVE THE HIGHEST PRAISE FOR THIS VENDOL MEDICINE"

Prominent Lady Tells Of Wonderful Relief From Gas In Stomach, Acid Risings, Cramps, Dizziness, Headaches And Nervousness Due To Constipation.

MRS. MARY SILVEUS

"At times I thought I was having trouble with my heart but it was only my indigestion and gas pressure that made me so uncomfortable," declared Mrs. Mary Silveus of 602 N. Canal St., Newton Falls, Ohio, whose husband is a steel worker employed in Warren, in telling of the grand relief that came after taking Vendol.

"I felt bloated after eating, and often after going to bed which made me so nervous I often had to get up and walk around for a while. Felt like a lump would rise up in my throat and a hot, sour liquid would come up and burn like fire.

"I often awakened with a headache, felt dizzy and had pains across my back and my legs ached so bad that I had to rub them.

"Vendol was doing so much good for people right here at home that I began taking it and have been helped so much that now I have the highest praise for this splendid medicine.

"Vendol relieved my constipation and then my other troubles just grew less and less till they no longer bother me.

"I haven't had indigestion for weeks, so the gas, sour stomach, lump in my throat and palpitation never bother me. I sleep sound and awaken free of dizziness with a clear head, no backache or painful arms and limbs. I just feel fine and am sure Vendol will help everyone suffering like I did."

Vendol is made from 12 Natural Roots and Herbs combined with Valuable Alkalines which is like taking several medicines at the same time. It relieves indigestion, gastritis, bloating, cramps, dizzy spells, spots before the eyes, nervousness and other symptoms due to constipation. Vendol acts as a mild diuretic to the kidneys and gives a wonderful appetite. Weak, miserable people get such a cleansing and invigorating effect that they soon feel like different men and women.

All leading druggists sell Vendol and the Vendol Man is daily at New Castle Drug Co., 35 E. Washington St. to explain all about it. So come see him today. New Castle Drug at 24 N. Mill St., and Schweitzer's Phcy., Ellwood City, sell and recommend Vendol.

Fear For Life Of Kidnaped Wealthy Chicagoan

Police Squads Scour District

Chas. S. Ross, 72, Seized By Three Gunmen—Believe Ransom Is Sought

KIDNAP VICTIM IN POOR HEALTH

(International News Service)

CHICAGO, Sept. 27—While squads of police scoured the area for his kidnapers, fears mounted today for the life of Charles S. Ross, 72, wealthy retired manufacturer abducted apparently for ransom Saturday night.

Seized by three gunmen who said they were acting on orders of their "boss" the elderly kidnap victim may have succumbed to the shock, police feared. He was suffering from high blood pressure and heart trouble.

Apprehension for the wealthy former greeting card manufacturer was heightened by the fact that this morning, thirty-six hours after his abduction, no word had been received from the kidnapers.

Kidnaping For Ransom

Capt. Daniel Gilbert, who mustered all available state police into the search, was virtually satisfied today the kidnaping was for ransom, yet no note or call from the kidnapers reached the Ross' luxurious apartment home, where Mrs. Ross kept a constant vigil.

The story of the kidnaping came from Miss Florence Freihage, 44, who served as secretary to Ross and who was with him at the time he was robbed and seized on a lonely road at the outskirts of the city.

Miss Freihage is still active in the George S. Carrington Company, printers of valentines and greeting cards. Ross, a former druggist who made a sizable fortune in real estate, sold his interest in the Carrington Company two years ago.

However, Ross had not received payment in full for his stock, and made a practice of obtaining a report on the company's progress from Miss Freihage about once a week. On Saturday, they drove to Sycamore and had dinner together for this purpose.

BUTLER, Pa., Sept. 27—John Golla 86 year old Connoquenessing Twp. berry farmer, drew a suspended sentence at the hands of Judge John H. Wilson following his plea of guilty to charges growing out of the shooting of his son, Winfred Golla, 50, last July. He was paroled for five years.

Argonne Forest Anniversary To Be Observed

GROVE CITY, Sept. 27.—Final plans were reviewed today for Regimental Day, to be celebrated by the two National Guard companies here Monday. Features will be a dinner at the State Armory, followed by drills and exhibitions by the companies for past commanders and invited guests.

The occasion is the anniversary of the bloodiest battle in which local soldiers ever engaged, the World War battle of the Argonne Forest. On September 26, 1918, Co. M, of Grove City, a part of the 28th Division, attacked against desperate enemy resistance in the Argonne, suffering heavy casualties among officers and men. It was there that Sgt. Jack Fleming of Grove City won the Distinguished Service Cross, but paid for it with his life. The decoration was awarded posthumously. During this fighting, four local men served as commanding officers: Major C. B. Smathers, Capt. Frank Ruffing, Captain Fred McCoy and Captain Wm. G. Smith.

At Monday night's dinner, 66 years of local military history will be reviewed, dating back to the organization of the Liberty Guards in September, 1871. Since that time, and in all wars, local militia companies have been active.

Famous Artists Will Appear Here October 11

EZRI PINZA

True to its promise made during the membership campaign the Civic Music Association will present artists of outstanding ability here this season in the senior high school auditorium For the opening number of the concert series Dr. E. F. Henderson, president of Civic Music today announced Ezio Pinza, Metropolitan basso, and Elizabeth Rethberg, Metropolitan prima donna, to appear October 11.

Since his debut shortly after the World War Pinza has built a world wide reputation. He didn't always have music as his idea of a career. There was a day when he wented to be a bicycle racer. His father stopped that and sent him to college to be an engineer. But music was his fate and what a glorious fate it has been.

During the World War he served with the Italian forces in the Italian Alps, four years of altitude over 6000 feet. The war over he made his debut in Rome. But Italy couldn't hope to keep this golden voice to itself. Other nations clamored for him and he came to the United States. Since then his career has been meteoric.

Madame Rethberg is an artist of ability equal with Pinza. With him she has appeared in 182 engagements in the United States, in Europe and in Australia. Getting both of them in New Castle for a joint concert is a guarantee of an evening of rare charm.

As the New Castle band swung by the reviewing stand, every bandsman was in step, every step matched the step of the man next and back, and there wasn't any question as to who would be the national champion for 1937. Competing against New Castle boys were crack bands from New York state, from the New England states and all long the Atlantic seaboard.

The band stayed in the 63rd street Y. M. C. A. Before they left the general secretary said to Lester W. McClelland, drill master of the band, "We have never had a better behved group of boys in our building. Your band shows the effect of discipline."

In front of the band up Fifth avenue was a twenty foot banner on which was painted in huge letters, New Castle, Pa." The New Castle contingent didn't believe in keeping secret their home town and the advertising the city received was most favorable.

No Big Upsets As College Football Season Is Opened

Pitt Crushes Ohio Wesleyan 59 To 0, Ohio State Tops Texas Christian

Minnesota Runs Wild Over North Dakota State 69 To 7, California Wins Game

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Sept. 27.—The setups of football have had their brief moment in the sun, the scattered remains have been duly removed from the premises in keeping with the annual custom, and, from here on out, the football season admittedly is with us. Briefly, nothing of consequence has happened so far, most of last Saturday's games having been the usual warmups for the potential champions, but beginning on the coming week-end plenty should and probably will begin to happen.

At that there were some bright spots even as early in the season as last Saurday, Ohio Sate choosing to open its season with the day's biggest intersectional encounter, which involved T. C. U. Ohio State won, incidentally, by 14 to 0, in the mud, and next goes against Purdue in another big time battle.

Win In Stride.

Other midwestern contests of some consequence found Illinois beating Ohio by 20 to 6; Indiana, which is coached by Bo McMillin, beating the team with which the famous Bo rose to fame, in other words, Centre, 12 to 0; Marquette doing no better than 14 to 0 against Ripon; Michigan State mangling Wayne by 19 to 0; Minnesota annihilating North Dakota State, 69 to 7; Purdue trimming Butler, 33 to 7, but why go on? If I must, I might also mention that Northwestern beat the freshmen, 85 to 0.

Minnesota goes against Nebraska next and figures to come through handily, as we say. In fact, Minnesota figures to do that all season and they say it is the team that can't miss.

Cornell Wins.

Back in the east, Cornell took Penn State, but did it in the last minute after State had tied the score a few moments before, the final result being 26 to 19, while Navy beat William and Mary 45 to 0 and others resulted as follows: Colgate 21, St. Lawrence 0; Dartmouth 35, Bates 0; Pittsburgh 59, Ohio Wesleyan 0; Manhattan 21, St. Bonaventure 12.

There wasn't anything even resembling an upset, considering that football is full of upsets and very often in opening games produces its biggest form reversals.

California's 30 to 7 win over St. Mary's created a mild shock, the latter team having been mentioned as at least capable of being the headliner on the coast. Santa Clara took Stanford, 13 to 7; Southern California beat Pacific, 40 to 0, and Washington beat Iowa, 14 to 0.

Easy Opening Games.

Summing it all up, it looks as though the far west really produced the only results likely to cause any great interest.

Alabama 41 and Howard 0, Duke 25 and V. M. I. 0, Louisiana State 19 and Florida 0, Tennessee 32 and Wake Forest 0, Tulane 7 and Clemson 0, Virginia 13 and Hampden Sydney 7, Vanderbilt 12 and Kentucky 0, give you an idea of how things went in the south. As a matter of fact, only three losing teams down there could score at all—and all favorites won, which is something of a new record for any section in running to form.

New Castle At Beaver Falls On Friday Evening

Game Will Be Played Under Lights At Reeves Stadium At 8 O'clock

New Castle High "Red Hurricane" resumed practice this afternoon for the fourth game on the grid card that calls for them to oppose the Beaver Falls Tigers at Reeves Stadium under the arc lights at 8 o'clock Friday night.

Head Coach Phil Bridenbaugh was anything but pleased with the showing of the boys last Friday night. There will be several changes in the lineup no doubt this week. A pass defense will be stressed very strenuously.

Meantime Frank "Tiger" Walton, trains his Beaver Falls boys with the hope that they can upset the New Castles.

Giants Need But Six More Wins

Only Eleven Games Yet To Play, Cubs Would Have To Win Them All

(International News Service)

NEW YORK, Sept. 27.—With eleven games left to play, the New York Giants today needed only six more victories to clinch the National League pennant, even if the second-place Cubs should capture all of their seven remaining games. In that event the final standing would be:

	W.	L.	Pct.
Giants	95	59	.617
Cubs	94	60	.610

Even should the Giants win only four games, the Cubs would have to capture all of their seven games to finish one game ahead of New York.

TALES IN TIDBITS

By BILL BRAUCHER
Central Press Sports Editor

NEW YORK, Sept. 27—Gab from the gridirons: We are averaging 50 letters a day . . . no, not fan mail . . . articles about football and the young scholars struggling to play it . . . sent by the departments of sports publicity of the universities and colleges . . . all the coaches' problems (and, boy, do they have problems!) are tossed into our laps.

Latest word from Joe Petritz, Russian publicist of the Irish, is to the effect Notre Dame is in a dither about a left halfback . . . there are some eight or ten guys trying for the role . . . but the question probably will be finally solved by shifting Andy Pupils to the spot . . . with Puplis at left half Coach Layden would have three quarterbacks on the team, Puplis, Joe Ruetz at guard (quarterback last year), and Chuck O'Reilly, actually calling the signals . . . Coach Lynn Waldorf's trouble at Northwestern, according to Publicist Walter Paulison, isn't concerned with quarterbacks but with forward passers . . Northwestern will have to play an open game this year because passers is what Northwestern has got . . . Captain Don Heap throws it, so does Jack Ryan (sophomore halfback) . . . so does Bernie Jefferson, veteran halfback . . . Northwestern has the catchers, too, in Ends Kovatch and Diehl, and Sophomores Grefe and Daly.

* * *

Publicist George L. Shiebler of New York university gets out a handy little booklet with a violet cover (the school color), containing all the references a man covering the game might want . . . on the front of the cover is the legend "perstare et praestare", which means probably "when in doubt punt" . . . "Whitey" Fuller, director of publicity at Dartmouth college, sends out a newspaper, a booklet and whatever else he can lay hands on . . . the newspaper carries a lead story about Dartmouth losing 11 veteran gridmen and still bearing up bravely . . . because Coach Earl Blaik is adept at finding a man's true football possibilities, Dartmouth hopes to have a man at each position when the big games come around . . . Publicist Jim Decker of Syracuse reports the Minnesota offense installed by the new coach, Ossie Solem, from Iowa, seems to be doing very well . . . the only other school in the east using the Minnesota offense is Princeton, which has done rather well by it.

* * *

Michigan State issues a snappy letter called the "Spartan Sport Service", which comes to the desk early and often . . . one of the interesting items on today's sheet is that two gents of the varsity went about the business of scrimmage so seriously the other day that both were kayoed and had to have their faces sewed up . . . Publicist Tom Foudy, of St. Mary's, proudly points out that the bands marching between the halves of the St. Mary's-California game "are bigger than the two that participated in the Rose Bowl game."

* * *

From Associated Students News Bureau, 104 Eshelman hall, Berkeley, Cal., Walter Frederick, director, come tidings that Coach Leonard (Stub) Allison, coach of the Golden Bear, has cut the California squad from 52 to 42 men to find a little more room on the practic field . . . another yarn is to the effect Stub doesn't like it so well because the other Pacific conference coaches have expressed in print their fears that California is going to town this year . . . psychology, y'know.

* * *

Publicist Bob Woodworth of Purdue traces the labors of the Boilermaker squad . . . seven of the 20 major letter men helped to build highways during the summer . . . one youth, Martin Schrever, 218-pound tackle, captain of the squad worked in the steel mills of Sharon, Pa., unloading ore trucks . . . Quarterback Cody Isbell was on the road gang . . . railroads came in for their share of betterment, at the hands of Big Bill Vergane, 238-pound end.

And we're only half through the stack . . . leading to the summation that college publicists, laid end to end, would get up and write a piece for the paper.

MELTON SAVES GIANTS CAUSE

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, Sept. 27.—In any sport we thrill to the entry who, with defeat staring him in the face, can come from behind and win.

We admire the fighter who can get off the floor and win. We like the horse or the human who can come pounding down the stretch to overhaul his rival and win going away.

That's why we doff our lids to the Giants today. They had what it takes—plenty of heart and class—to come from behind, slam the Cubs in their own bailiwick and move on out in front.

Giants Beat Dodgers

The Giants are finishing the National league race like stake horses; the Cubs are winding up like selling platers.

Nothing typifies better the spirit of the two teams than the games of yesterday. The Giants beat the Dodgers, 4 to 3, on Lou Chiozza's homer in the ninth.

The Cubs blew their first game to the Cards, 6 to 5, when the Cards staged a four-run uprising in the ninth. The Bruins managed to outstagged the Cards in the night cap, 8 to 5, and maybe it's just as well they didn't have to play the ninth inning in this one as the game was called at the end of the eighth by darkness.

Cliff Melton, the long, lean lefty, was called in to stop the Dodgers in the eighth and once again he was a tower of strength to the Giants. Chiozza's homer assured Cliff's nineteenth victory, a remarkable showing for any first year rookie, and probably won him the honor of pitching the opening game against the Yanks in the world series.

The Giants, of course, have not yet clinched the pennant but the front office is accepting checks for reservations now.

The Giants need win only six of their eleven remaining games to nail the flag to the staff even if the Cubs should win all of their seven remaining games.

Bill Lee again failed the Cubs in the ninth yesterday. He had a three run lead going into the closing inning and blew it, and pennant winners don't blow many in the ninth as the Cubs have been doing through the last six weeks.

Pirates Win Two

The Pirates moved up to within half a game of that third place money by knocking over the Reds, 5 to 4 and 2 to 1 and the Bees—the hitless wonders of the major leagues—belted five Philly pitchers for 23 hits, including two homers by Cuccinello and one by Shoffner, for a 17-3 decision. It was the biggest day the Bees have had all year.

Jimmy Foxx hit a homer—his 34th—with the bases full to give the Red Sox a 7-2 margin over the Yanks who were held to six hits by Jack Wilson. The White Sox took a pair from the Browns, 4-3 and 4-1 and, after scoring three in the ninth, the Athletics hung on to tie the Senators 7-7 in a game halted at the end of the eleventh by darkness.

Johnny Allen, the Indians' great righthander, continued his amazing streak by beating the Tigers in the first game of a double-header, 9 to 3, for his 14th victory without a defeat and young Bob Feller held the Tigers to five hits to win the nightcap, 4 to 3.

SOUTH HILL GRIDDERS

All members of the South Hill football team are asked to report at the South Hill field tonight at 5 o'clock for a practice session. The South Hill boys will tangle with the Crotons next Sunday.

First Game Played At Latrobe, Pa., Back In 1895, Records Show

By WALTER JOHNS

Sideline coaching by player, coach or fan was barred in 1892.

In 1893 football costumes were changed again as Harvard introduced one-piece suits made of light leather.

Football was without an official governing body in 1894 for Harvard and Pennsylvania withdrew from the inter-collegite association. A rules committee was formed, however, with Harvard, Pennsylvania, Princeton and Yale participating, and many changes were made in the football code.

Length of game was reduced from 80 to 70 minutes and divided into halves of 35 minutes each; no player now could lay hands on an opponent unless the opponent had the ball; officials were to consist of an umpire, referee and one linesman. A second linesman was created in the following year.

Professional football made its entrance in 1895. According to Dr. Harry A. March, called by some the "Father of Professional Football," the first pro game took place in the town of Latrobe, Pa., near Pittsburgh on Aug. 31. Between Latrobe and Jeannette, Pa.

Pittsburgh was the first city to have a "pro" team. It was not until 1920, when prominent promoters of pro football clubs met at Canton, O., that professional football really was organized.

Crisci Scores In 34-6 Game

Brights Team Champions Of Softball Loop

Carnegie-Illinois Steel Softball Championship Is Settled Sunday

The Brights softball team is doing a lot of deserved rejoicing today over the Carnegie-Illinois Steel Softball league championship that they won yesterday by taking the measure of the Bakers 9 to 8.

It was a hot see-saw battle all of the way. The Brights dropped the first game of the series, but won three straight after that to win the title. The score were 15-7, 9-3 and 9 to 8.

Stack was the mainstay of the Brights in the pitching department. He lost the first game, but won two games after that. "Blackie" Erwin pitched the champions to victory in the second game. Kolodjeski opposed Stack in the final two games. C. Kreuger was easily the big star of the game Sunday.

Kreuger Homers

Kreuger pounded out big rousing homers and drove in three of the Brights boys ahead of him to account for five runs in his two homers. Lowry was also on a hitting spree and got four in five trips to the platter. J. Dytko came through in the clutch with a long fly that put the winning run over in the first of the ninth. S. Koszela was the best for the losers, tying the count in the seventh with a long home run drive. He made several sensational catches of hard-hit liners in center field.

The Brights are being congratulated on all sides today and rightly so. They have a fine well balanced team and are worthy of the name champions.

Ellwood High Wins From Wellsville By 32-14 Score Saturday

ELLWOOD CITY, Sept. 27.—Paced by the fleetfooted, shifty Jack Snare, left half, and their speedy quarterback, Tommy Jones, the Ellwood High Wolverines captured their third consecutive victory over the well groomed, Wellsville, Ohio, Tigers by a score of 32-14, on Saturday afternoon at Lincoln field.

A crowd of approximately 5,000 witnessed the spectacular contest with many Wellsville fans in the bleachers to cheer and encourage their home town players. Ellwood City fans went home more than ever convinced that Coaches Croft and Gills have molded a potent, smooth clicking aggregation that will probably spell a red-light for a majority of their future opponents.

In the opening plays both teams turned to the open brand of football, and the Ohio district as is known by football adherents, has long been famous for its open brand of football with lateral passes. When the Ellwood eleven began to employ open football in their offensive drive, both the opponents and Ellwood fans were taken by surprise.

Score Early

With the first five minutes of play, the Croft-Gills team staged a 57 yard march for their first touchdown with Snare scoring on a 15 yard sprint from a spread formation play. Keller missed the placement try for the added point.

Soon after the kick-off, the Wellsville Tigers were forced to kick and then with Snare, Newton and Weigle handling the ball, the Wolverines again started a drive from their own 41 stripe to Wellsville's 16, and on the first down Koalch, right half, on a reverse from the spread formation carried the ball over the goal line for the second tally. Keller's placement kick was good and the score was 13-0 favoring the locals at the end of the first quarter.

Visitors Score

In the second period, Coach William Storer's orange and black eleven started an aerial attack from their own 26 yard line. A pass from Nelson to Zahrndt who lateral to Schukert netted them a total of 34 yards. Spurred on by this success, they began a series of passes to shatter the Ellwood defense until the ball was finally resting on Ellwood's 5 yard marker. A pass from Healey to Schukert was good for the visitor's first touchdown. Rini added the extra point, with the score standing at 13-7.

In the same period, the Wolverines after an exchange of punts, scored on a pass of 7 yards from Jones to Snare. Keller's placement was wide and the score at half-time was 19-7 with Ellwood in front.

Near the close of the third quarter the Ohioans again took to the air, but their aerial attack was stopped when Newton, playing left-half for Ellwood, intercepted a pass and [illegible] to Wellsville's 46 yard stripe. With Newton and Jones handling the ball the pigskin was carried to the 13 yard line. After losing 7 yards, Jones, Ellwood's quarter with splendid interference ran 20 yards for the Wolverine's fourth touchdown. Weigle's plunge through center failed for the extra point. The score at the end of the third period was 25 to 7, with the leaders well on their way for another tally with the ball resting on Wellsville's 7 yard marker.

Ellwood's Final Touchdown

Shaeffer scored Ellwood's final touchdown on an off-tackle slant and Keller's placement kick was complete making the score 32-7.

Wellsville again took to the air against a new Ellwood team after the kick-off, and on passes from Healey to Nelson, from Baczar to Healey, and from Call to Nelson, the ball was advanced to the blue and white team's 18. A pass from Call to Nelson was good for the visitor's second touchdown and the final tally of the game. Rini's conversion for the extra point counted.

When the final whistle sounded Ellwood was in possession of the ball in Wellsville's territory and the final score read Ellwood 32 and Wellsville 14.

Ellwood's gains were through scrimmage with Snare, Jones and Newton picking up the yardage, while Wellsville's scoring was via the aerial route with Nelson, Call and Healey doing the heaving.

Ellwood's linemen deserve much praise for their sterling performance especially that of Keller, Fehl and Cook. For the Ohioans, Hond, Rini and Zahrndt put up the best fight in the line.

Fine Game

It was a grand game and the lopsided score doesn't indicate by any means the thrills and excitement that filled every minute of the game. The visitors were a plucky band and their passes both forward and lateral won the admiration of all the spectators. On the strength of their first three successes, the locals are riding high today, and deservedly so.

While the locals emerged victorious in Saturday's fray, their next week's opponent, Rochester high, was trimmed by Midland by a score of 25 to 7. Ellwood is also scheduled to meet the Midland team on October 23, at the local field. Their other future opponents fared as follows: Aliquippa defeated Allegheny 34 to 0; New Brighton topped Sharpsville 7 to 0; Beaver Falls upset Monaca 25 to 6 and Butler was set back by Har-Back 7-0. Next Saturday's game will be played at Rochester.

Wellsville high school's band, in snappy uniforms, accompanied the team and with the Ellwood band presented a fine program of music during the intermission.

Little Bits Of This And That About Ellwood

Mr. and Mrs. J. L. Steckman, of the Ellwood-New Brighton road, are "tops" according to Saturday's occupants of the press box at the Ellwood-Wellsville football game. The Steckmans presented the group with an artistically arranged box filled with varied types of luscious grapes.

A sure sign of autumn was noted over the week end when boys galore with sacks over their backs were scouring the woods for nuts. There seems to be an average crop of hazel, hickory, butter and black walnuts this year.

Students ambitious to be radio announcers are numerous at the local high school and the class in vocational guidance is giving a number of these youths an opportunity to speak over a micrphone by permitting them to give the descriptions of the football games over the loud speaking system.

Ellwood Held To Farrell Contract

Farrell High School Refuses To Release Ellwood City From Football Contract

ELLWOOD CITY, Sept. 27. — A most unfortunate and unintentional situation has arisen in Ellwood City high school's football schedule.

The whole thing amounts to this. Ellwood will be held to a contract with Farrell high school for a night football game on Friday, October 22.

Last April, Russell Shaffer, principal of the high school, while checking over the contracts found that Ellwood City had over-looked a notation on Farrell's contract changing the date of their game from October 15 to October 22.

In the meantime Ellwood City had already given the date of Saturday, October 23, to Midland high school, which was a corresponding date with that of last year.

Ellwood City officials got in contact with Farrell asking to be released from their contract. Farrell refused to release Ellwood City and have also refused to make any concessions whatever. Ellwood City offered to play the game on Saturday, November 20, which is an open date for both schools, but Farrell again refused.

In the year 1929, Ellwood City most willingly released Farrell from a contract calling for a return game to Ellwood City, when Farrell had a Similar mix-up in their schedule.

In view of this favor granted to Farrell, and the fact that Ellwood City is will ing to make concessions, Ellwood City officials believe that Farrell in holding Ellwood to the contract are being unfair.

At the present time, Coach Croft thinks he will take his second and third teams to Farrell for the night game, reserving the first eleven for the game with Midland at Ellwood City, the following day.

Boswell-Sprinker Marriage Details

North Sewickley Couple United In Marriage On September 17

ELLWOOD CITY, Sept. 27—Miss Jean Boswell and Russell Sprinker, both of North Sewickley township, were married Friday, September 17, at the parsonage of the Bridgewater Methodist Episcopal church with the pastor Rev. J. R. Stewart officiating. Rev. Stewart is also pastor of the couple's church, Concord Methodist.

Attired in a white lace frock with white accessories and an arm bouquet of pink rosebuds, the bride was very lovely. Her sister, Miss Dorothy Boswell, was the only attendant and she chose a navy blue sheer and a corsage of roses.

Immediately following the wedding ceremony, they left on a post nuptial trip to Washington, D. C., and other eastern points. After October 1, they will reside in North Sewickley township.

Isn't knowledge wonderful! Of course we still have the same ancient troubles, but it's nice to know their names.

A man isn't shamed if a woman marries him for security. She pays him a high compliment in thinking he can provide it.

Banquet To Honor Legion Ball Teams

American Legion Junior Baseball Teams To Be Guests At Banquet Thursday

ELLWOOD CITY, Sept. 27.—Thursday evening will be a gala occasion for the members of the American Legion junior baseball teams of this city when the J. Wilbur Randolph post will hold a banquet in their honor in the dining room of the United Presbyterian church.

Manager "Pie" Traynor, Coach Honus Wagner and Paul Waner, a member of the team, of the Pittsburgh Pirates, have been secured as guest speakers and just the mention of these three baseball authorities spells success for the banquet, not to mention the other splendid features o the evening.

Members of the Manos and Merchants teams will be presented with silver baseball trophies in honor of their achievements during the summer. Managers of all the teams will be awarded trophies.

J. Russel Schill, secretary of the Chamber of Commerce, will be the toastmaster.

A committee of three, Elmer Greenham, Robert Taylor and Carl Shirley, of the post, are in charge of the arrangements and are leaving no detail incomplete to make the event marked success.

There are still a few reservations left and they can be secured from Robert L. Taylor at Bauder's garage.

The banquet will be served at 6:30 o'clock.

FROM ME TO YOU

By MESEEALL

As the days roll past the A. F. of B. keeps growing by leaps and bounds . . . today's mail brings the following applications . . . these boys are enrolled in Local No. 1 . . . James Barrett (application stated that he was a particularly fascinating bachelor) . . . Ralph Davies, Bill Mackie, Bill Trick, Charles Kennedy and Jack Bechtol . . . there is still room for you . . . send in your name today.

It seems from the reports received at this desk . . . there has been a grave misunderstanding concerning the proper dress for social functions . . . my dear friends this idea was submitted by a prominent business man of this city and being in sympathy with the idea we published it . . . it seems that some people think we had the idea because we had a dinner jacket . . . no it wasn't that . . . the old suit hasn't been out of the moth closet for so long that it should be able to walk . . . that is the case with many fellows . . . these are the boys that want to wear them to a few dances this winter . . . a man should dress the way he wants to but he should want to dress right . . . we still think a style show for men would be very interesting . . . maybe we could get something up on that idea . . . Fellows, how about your comments on the dress idea.

We hear that the Legion has started a campaign to send the Band to California next summer . . . they have a real Band and we are glad to see the boys take the honors . . . this would be a big undertaking but well worth the effort . . . it wouldn't mean a lot of money to anyone person if it was worked right . . . may we suggest it be divided into three or more parts . . . "The Legion Band to California in 1938".

What is more beautiful than the State of Pennsylvania . . . especially at this time of year . . . the leaves are turning a galaxy of colors . . . the air is clear and crisp . . . the wild life are getting ready for winter . . . folks we have a wonderful state and the sooner you know it the better . . . see United States, but see Pennsylvania first.

Preparing To Pour Concrete For Stack

Contractor in charge of the $2,800,000 power plant which is being built at West Pittsburg is getting ready to pour concrete for the 275 foot stack. At present the employes are working in three shifts. At night large, bright lights illuminate the section where work is under way.

There are several steam shovels engaged in excavating and quite a number of trucks used to haul the dirt away.

The excavation already has reached a point below the level of the Mahoning river and water is being discharged through large pipes.

Stock Market Opens Up Strong

Margin Selling Results In Paring Gains In Morning, However

By LESLIE GOULD
International News Service Financial Writer

NEW YORK, Sept. 27.—The stock market opened strong today, after its collapse of last week, but soon ran into margin selling and early gains running to more than 4 points were reduced by a half to two-thirds.

Higher markets abroad, particularly in American stocks, and the further moves by the government to give business the "needle" through easing credit, were factors in the strong opening.

U. S. Steel, which was up more than 3 points in London, opened here on an over-the-weekend gain of 2½, but this was reduced to a fraction by the second hour. The same with most of the other market leaders. Bethlehem's 3¼ gain was pared to 1¼, and in the motors Chrysler gave up 2½ points of its initial 4-point advance.

The rails surrendered about half their opening gains. Atchison, starting 1½ higher, slipped back 1¼ above Saturday's close, Southern Pacific's 1½ rise was cut to ¾, and B. & O. held only ⅛ of a 1⅛ rise.

The coppers, up 1 to 2½, lost a point or more of this advance, while in the oils there were a scattering of minus signs. Standard Oil of N. J. sank to a new low, converting a ¾ gai ninto a loss of 1¼.

Rail equipments were another laggard group, Pullman making a new low, off ½.

Brokers were generally optimistic on the outlook, most of them looking for a substantial rally after the severe decline of the last six weeks.

General opinion both in brokerage and business circles is that the selling has been overdone. Business leaders are almost unanimous, except possibly in the railroad, railroad equipment and textile lines, that trade conditions do not warrant the current pessimism.

Hall Is Filled For Celebration

Poles Mark Dual Anniversary In Celebration In Pulaski Hall Sunday

With Pulaski hall filled to capacity Sunday afternoon, September 26, New Castle Poles marked the anniversary of the Battle of Warsaw which was fought in 1920 and the organization of the Polish Legion for the World War which was effected in 1917.

The celebration was under the sponsorship of the Polish Central Union which is composed of the various Polish organizations of the city and county. William Yakovich, president of the Central Union opened the meeting and in a few words described its purpose and invited the representatives of the various organizations to take places on the stage. He then introduced Stanley Augustyn the chairman of the day.

In the balcony of the hall an orchestra was located and from time to time responded with orchestral numbers. The invocation was pronounced by Rev. E. R. Szelong, pastor of the Church of the Madonna. A hymn for the deceased Polish veterans followed.

Children of the school of the Madonna were an interesting part of the program. At different times they presented folk dances, recitations and other numbers.

Speakers of the day lauded the victory of Warsaw of 1920 when the Polish army effectively stopped the onrush of the Bosheviki, thus insuring the safety of Eastern Europe against their inroads. Fourteen veterans of the Polish Legion were present and were introduced by Chairman Augustyn.

Among the speakers were Col. T. Starzynski, national president of the Polish Falcons, Rev. E. R. Szelong, Judge W. Walter Braham, M. W. Stypaula, commander of the third district, Polish Veterans of America, Bart Richards, Mrs. Martha Pietrusinsko, vice president of the women's auxiliary, Polish Veterans of America, Major Guy J. Wadlinger, T. W. Dickey.

Following the meeting a dinner was held in the home of Mr. and Mrs. Frank Cichan of High street in honor of the distinguished guests from out of the city.

Senator Sipe, first Democratic senator from Armstrong and Butler counties in 80 years, and at odds with the country's regular Democratic organization, ascribed the letter, along with several oral threats against his life, to a political enemy.
